

Web Authentication Guide Appendix A - Disabling Popup Blockers

The web authentication process requires that pop up blocking is turned off.

Firefox

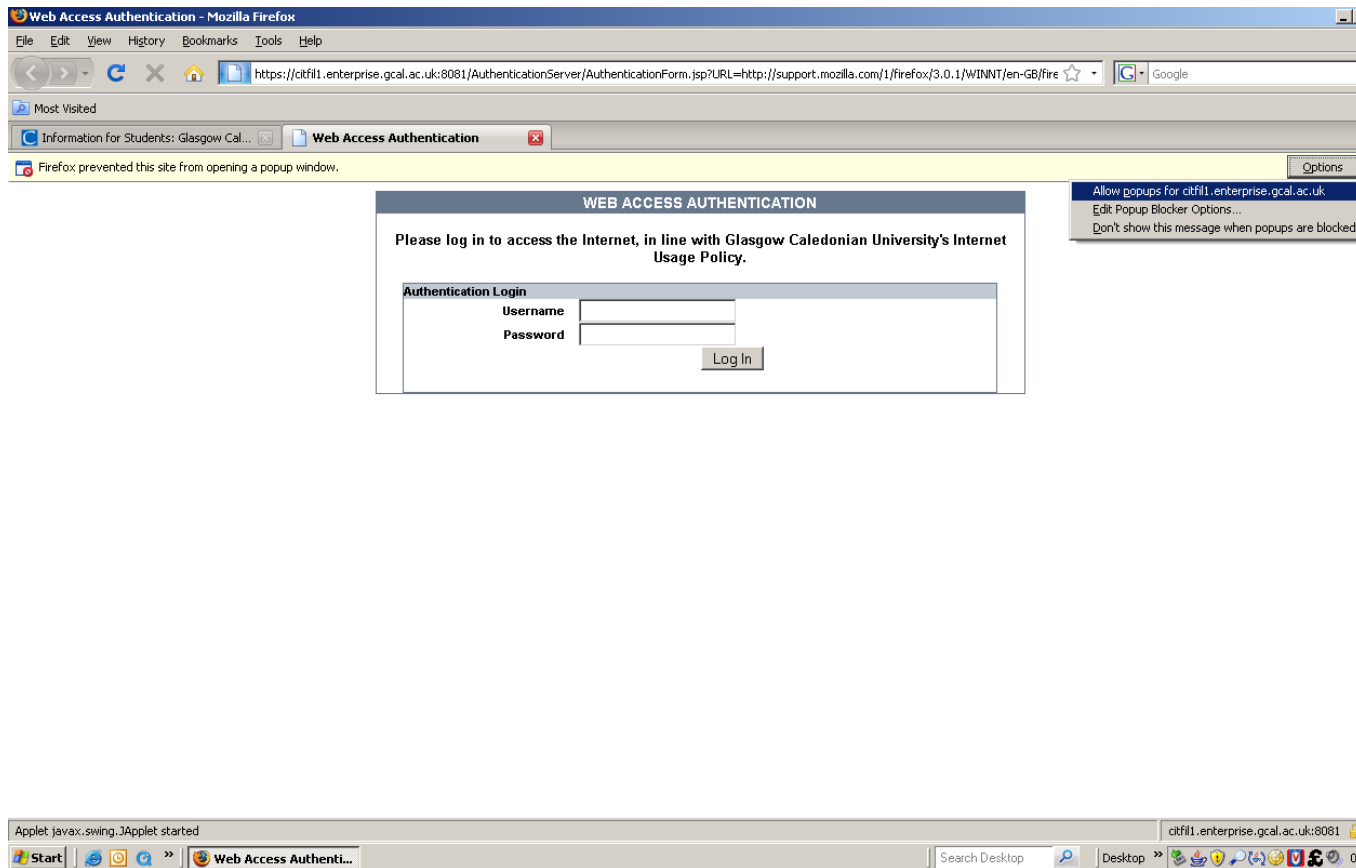

Figure 1

Firefox Popup blocker settings can be reviewed under *Tools -> Options -> Content* (Figure 6)

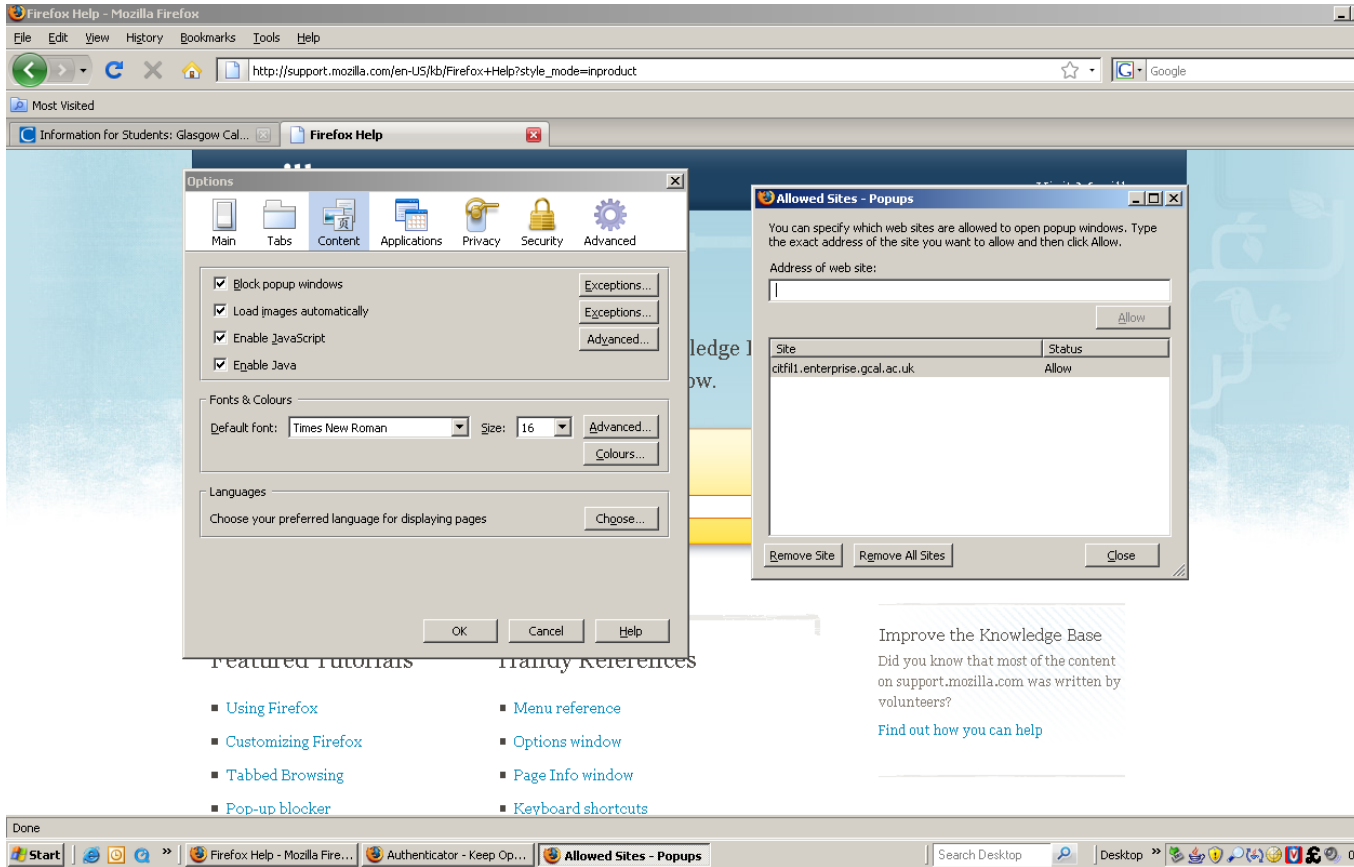

Figure 2

Internet Explorer (IE)

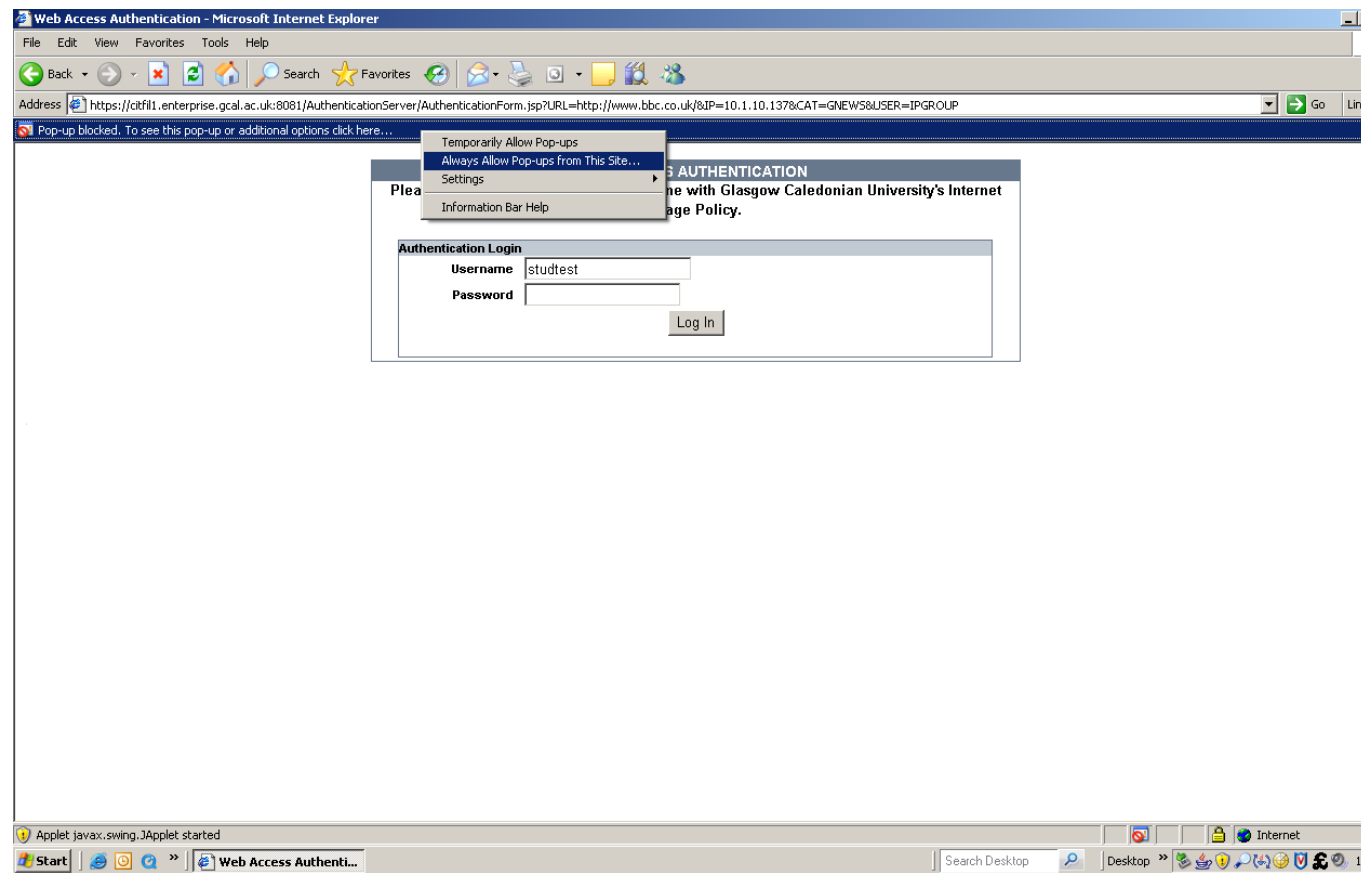

Figure 3

IE Popup blocker settings can be reviewed under *Tools -> Pop-up Blocker -> Pop-Up Blocker Settings* (Figure 8)

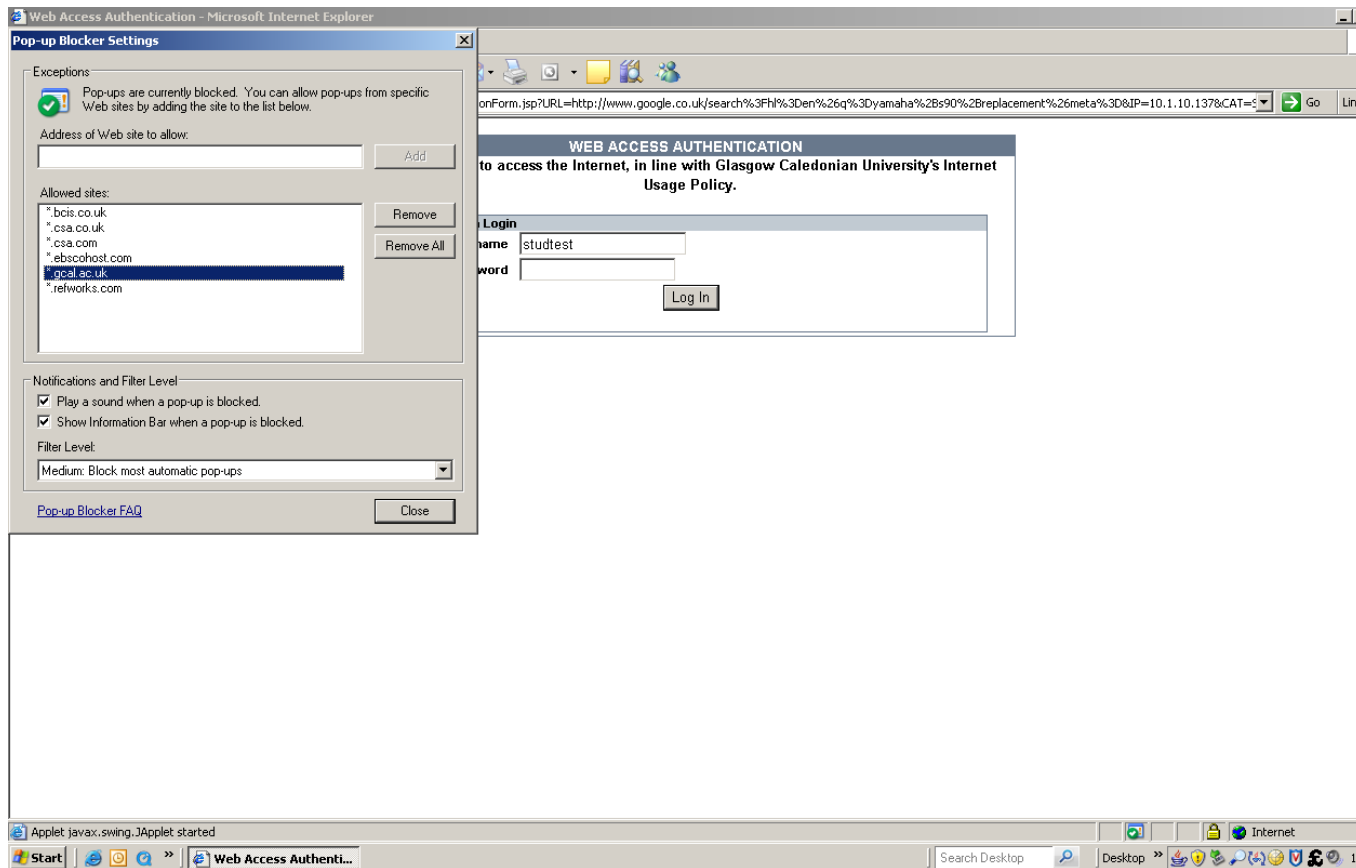

Figure 4

Safari

Unfortunately, Safari offers no method of selectively allowing popups. Figure 9 illustrates how to turn off pop up blocking.

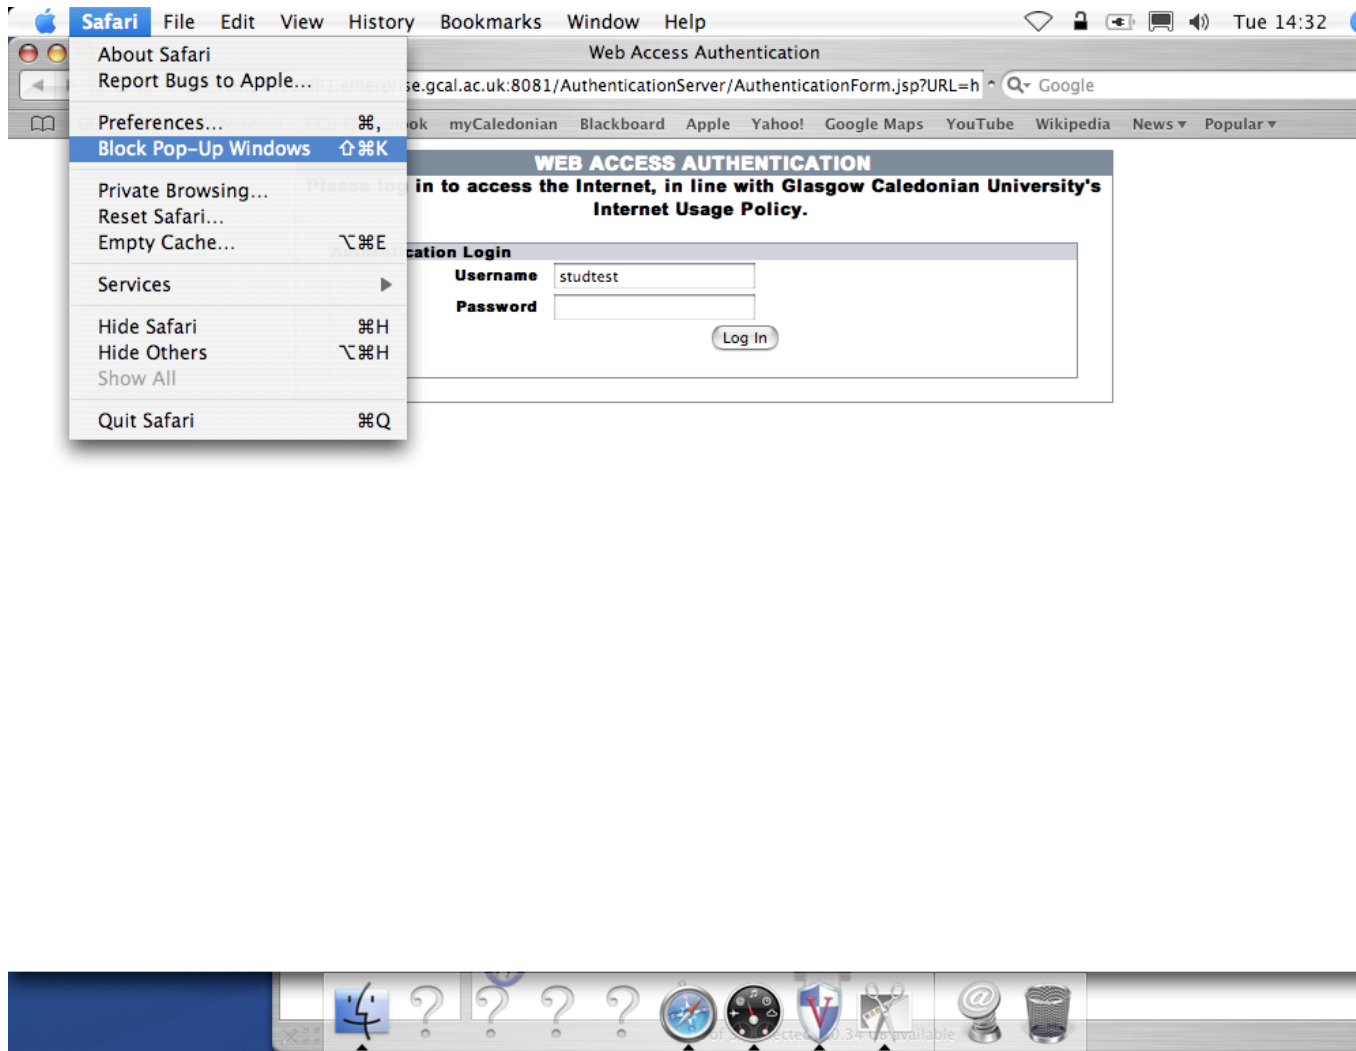

Figure 5

An alternative method is shown in Figure 10. These settings are accessed from *Safari* -> *Preferences...* -> *Security*
